

RODENSTOCK SINGLE VISION LENSES.

From Cosmolit - thinner, flatter lenses with improved visual performance to the edge of the lens* to Impression® Mono 2 - bespoke lenses with the very best performance and aesthetics, there is a lens for every spectacle wearer and every pocket.

Combine the lens options with an extensive range of materials to provide the thinnest, lightest spectacles you've ever experienced.

* compared to conventional spherical lenses

RODENSTOCK SINGLE VISION LENSES.

The choice is yours.
house-of-better-vision.com

SEE BETTER UP TO THE EDGE OF THE LENS.

We all expect clear vision from our spectacles, however as demands on our vision rise it is apparent that conventional spectacle lenses do not provide the clearest vision at the very edge of our lenses. Rodenstock have a complete portfolio of single vision lenses which address these demands, so you can now benefit from optimal vision in all your activities.
